

Products that Perform | **Knowledge** that Serves | **Service** that Delivers

Trained and Certified to Deliver

Electronics

Krayden offers best-in-class materials and chemicals carefully selected to maximize the performance of assembly and semiconductor electronics.

THERMAL MANAGEMENT

Gap pads, thermal greases, thermally conductive encapsulants

ENVIRONMENTAL PROTECTION

Encapsulants, potting material, conformal coatings, shielding materials

SOLDER MATERIALS

Flux, preforms, paste, bar, ribbon and wire

Aerospace - Defense

We offer a wide variety of technologies for the design, manufacturing and maintenance of space, military and commercial aircraft.

SPACE GRADE MATERIALS

Adhesives, films, sealants, cleaners

PROCESS AIDS

Tooling resins, boards, molding compounds, abrasives, cleaners,

ADHESIVES

Internal and external Structural adhesives & Ablatives

Energy

Krayden is a leader in the materials and chemicals used in the wind, solar, EV and battery energy markets.

COMPOSITES

Prepregs, process equipment, lubricants, cutting fluids

EV MATERIALS

Thermal interface materials, EMI/EFI shielding, electrically conductive adhesives

SOLAR MATERIALS

Hydrophobic coatings, adhesives, potting & encapsulants

Transportation

Krayden has design expertise in OEM automotive, automotive tiers, bus, truck and optimizing the entire value chain.

PERFORMANCE MATERIALS

Structural adhesives, sealants, assembly aid

ELECTRONIC MATERIALS

Encapsulants, Conformal Coatings, Potting, Shielding materials, Thermal management

LUBRICATION & SURFACE TREATMENTS

Lubricants, Greases, Surface treatments & Process chemistry, Anti-friction, Anti-corrosion

Industrial

Krayden is the frontrunner in general industrial materials and safe and reliable chemical distribution.

ADHESIVES & SEALANTS

MMA, CA, Hybrids, Acrylics, Silicone, Epoxy, Urethane, Anaerobics,

SPECIALTY CHEMICALS

Anti-corrosion coatings, hydrophobic coatings, lubricants, cleaners, surface treatment chemicals

Solutions Tailored to You

Custom Packaging

Flexible packaging solutions to improve efficiency, reduce waste, and lower costs.

- Single- and dual-component cartridges
- Disposable quick-paks for one-time use
- Metal and plastic tube filling
- Barrier and injection kits
- Private-label syringe and cartridge filling
- Clip-Paks®
- Premixed & Frozen (PMF)

Custom Fabrication

Value-added fabrication to reduce process time and cost through:

- Die cutting
- Laser cutting
- Slitting
- Laminating
- Sheet-to-part converting
- Roll-to-roll converting

Labeling & Barcoding

Compliance-ready labeling to improve traceability and inventory control

- Custom label design
- Printing
- Barcoding
- Regulatory and customer requirements

Custom Formulations

Formulations tailored to performance requirements and application needs

- Thermal, electrical & mechanical property tuning
- Environmental resistance: moisture · chemicals · temperature
- Filled systems: thermally conductive, electrically insulating · EMI/ESD fillers
- Substrate compatibility and adhesion optimization
- LINQ product line for challenging specifications

Our Solutions Begin with Premier Brands

Krayden is technically trained to support the leading manufacturers of specialty engineered solutions: adhesives, sealants, coatings, thermally conductive materials, lubricants, composites and silicones. Our family of premier lines represent cutting edge innovative chemistries that solve engineering challenges

DOW is a globally integrated provider of materials, application technologies and services. DOW is focused on providing innovative technology for all segments, offering solutions in potting and encapsulation, conformal coatings, adhesives, sealants, thermal management, greases and lubricants.

DOWSIL™

XIAMETER™
Silicones Simplified
from DOW CORNING

MacDermid Alpha is a provider of SMT assembly solutions, wave solder assembly solutions, PV assembly solutions, die attach assembly solutions and industrial assembly solutions. Their portfolio of products include: solder paste, solder preforms, liquid soldering flux, soldering alloys, cored wire, electronic cleaners, surface mount adhesives, stencils and sinter technologies.

ELECTROLUBE

kester™

HumiSeal, an operating division of Chase Corporation, specializes in conformal coatings, display bonding, thermal management, potting, encapsulating and adhesives. Materials include acrylics, urethanes, acrylated urethanes, silicones, epoxies and water-based coatings for the protection of sensitive devices.

Huntsman Advanced Materials is a leading chemical company for composites, adhesives and formulations. **Araldite** and **Arathane** products meet demanding engineering specifications and address customer-specific needs across a wide variety of industrial, consumer and **defense and aerospace** applications.

Qnity provides Laird Performance Materials solutions including thermal interface materials, electromagnetic interference (EMI) shielding, microwave absorbers, and environmental sealing products. These materials support **thermal management**, signal integrity, and protection of electronics across telecommunications, automotive, industrial, and consumer applications.

HENKEL offers adhesives, sealants and surface treatments for electronics, industrial, automotive and aerospace applications. Henkel offers solutions for solder chemicals, die attach, potting and encapsulation, conformal coating, SMA and adhesives for OEM and tiered suppliers

LOCTITE

BERGQUIST

FREKOTE™

TECHNOMELT

BONDERITE

Northern Composites, under Krayden, distributes composite process materials, including Northern Composites vacuum bagging materials and accessories. Their portfolio of products include: process materials, pre-pregs, woven reinforcements, component resins, release agents, structural reinforcements, tooling products, tools & accessories.

ITW Performance Polymers, develops high-performance adhesives, sealants, coatings, and composite repair materials for industrial, automotive and marine applications. Their portfolio includes **potting silicones & epoxies**, polyurethanes, methacrylates (MMA), polyester systems, and specialty polymer technology.

PLEXUS

INSULCAST

EPOCAST

3M is a global manufacturer that applies 3M science and innovation to make a real impact by igniting progress in lives and communities across the globe. Modernize your **aerospace approved** assembly methods with 3M bonding tapes, **VHB** tapes, insulating & conductive tapes, and 3M **Scotch-Weld**.

Dupont Molykote is a trusted brand in specialty **lubricants** and protective compounds that offers solutions including greases, oils, anti-friction coatings, pastes, and silicone compounds. These materials are used to reduce friction, prevent wear, support sealing, and improve reliability in automotive, industrial, electronics, and electromechanical applications.

Expanded Portfolio

Krayden distributes an expanded range of engineered specialty materials - chosen for their technical depth, application fit, and the same standards of performance our customers depend on.

HB Fuller is a global leader in adhesive technologies, offering a broad portfolio engineered for demanding assembly environments. Their solutions span structural adhesives, reactive hot melts, sealants, and PFAS-free polysulfide systems with particular strength in **electronics assembly, aerospace sealing, and industrial bonding** where bond integrity over long service life is non-negotiable.

Solstice delivers precision **thermal interface solutions** where heat removal is a design constraint, not an afterthought. Their portfolio of **phase change materials**, gap fillers, putty pads, and thermal gap pads is engineered to minimize contact resistance, conform to irregular surfaces, and maintain performance across wide operating temperature ranges in power electronics, EV modules, and high-reliability computing.

Dymax pioneers **light-cure manufacturing** - accelerating assembly cycles with UV and visible-light-activated adhesives, coatings, and encapsulants that cure in seconds under controlled exposure. Their integrated systems approach, combining formulated materials with precision curing equipment, enables consistent, high-throughput manufacturing for electronics, medical devices, and industrial applications where speed and process control are equally critical.

PPG is a global supplier of fiberglass reinforcement materials for composite fabrication. Krayden distributes PPG's woven fiberglass fabrics, including **Hybon-brand glass reinforcements**, used in structural composite layups across aerospace, wind energy, marine, and industrial applications where consistent fiber architecture and resin compatibility are essential to part quality and structural integrity.

Sika is a global authority in specialty chemicals for bonding, sealing, damping, and structural reinforcement. Their portfolio of structural adhesives, sealants, and composite resin systems, sold under **Axson, SikaFast, SikaFlex, and Sikasil brands**, addresses the full spectrum of assembly, repair, and manufacturing applications across automotive, aerospace, and industrial sectors with chemistries that combine processing flexibility with long-term structural integrity.

Elantas, specializes in insulating and protective materials for electrical and electronic systems. Their resins, varnishes, and encapsulants are engineered to preserve dielectric performance, resist thermal cycling, and protect against moisture and chemical ingress - critical requirements in motor windings, transformers, EV drive systems, and high-density circuit assemblies.

Parker LORD brings together **structural adhesives**, conductive materials, and thermal management solutions built for environments where bonding failure is not an option. Their COOLTHERM thermal interface materials and LORD structural adhesives are trusted in aerospace structures, **battery assemblies**, and industrial electronics - applications where vibration, temperature extremes, and chemical exposure demand the highest bond reliability.

CAPLINQ, a Krayden company, develops **specialty materials for niche applications**. Epoxy molding compounds, mold release sprays, and process chemistries under the LINQ product lines. LINGSOL, LINQALLOY, and CHEMLINQ are engineered for electronics assembly, semiconductor packaging, and precision cleaning applications. Custom formulations are always available. LINQCELL is the electrochemical portfolio with membranes & GDLs.

Hexcel is a world-leading manufacturer of advanced composite materials. Krayden distributes Hexcel's woven carbon fiber and fiberglass reinforcement fabrics, including **HexForce structural textiles and HexPly prepreg systems**, serving aerospace, defense, and high-performance industrial applications where weight-critical structural performance is the primary design driver.

Zip Chem provides specialty MRO chemical solutions purpose-built for aviation and industrial maintenance environments. Their product line spans precision cleaners, corrosion inhibitors, lubricants, sealants, and deicing compounds - formulated to meet aerospace OEM approvals, support aircraft-on-ground requirements, and keep maintenance operations running efficiently under strict regulatory and operational constraints.

Company	Product Lines	Brands
	Adhesives, Conformal Coatings, Hot Melts, Hydrophobic Coatings, Gasketing, Greases, Lubricants, Potting & Encapsulants, Sealants, Silicone Fluids, TIMS, Heat transfer fluids	DowSil, Sylgard, Xiameter, Dowfrost
	Adhesives, Cleaners, Conformal Coatings, Conductive Inks, Equipment, Film Adhesives, Gasketing, Hot Melts, Instant Adhesives, LPMS, Structural bonding, Encapsulants, Underfills	Loctite, Berquist, Bonderite, Frekote, Technomelt, Teroson
	Solder pastes, Solder, Solder Flux, Cleaners, Preforms, Wire, Permanent Marking Inks, Assembly & Semiconductor adhesives	Alpha, Kester, Electrolube, Hi-Tech, Enthone
	Conformal Coatings, Masking, Potting & Encapsulants, Strippers, Thinners, TIMs, Sharp Edge Conformal Coatings.	Humiseal, Resin Designs, ABChimie
	Structural Adhesives, Edgefill, Resins, Tooling, Syntactics	Araldite, Epibond, Epocast, Uralane, Huntsman, Aradur, Arathane
	Adhesives, PPEs, Tapes, EMI/RFI Shielding, Thermal Bonding Films, Adhesive mix monitor, Aerospace Films, VHB Tapes	Scotch-Weld, Scotchcast, VHB
	Composite Materials, Vacuum Bagging Technologies, Kitting, Prepregs, Woven Reinforcements, Component Resins, Release Agents, Tooling, Sealant Tapes	Hexcel, BGF Industries, American Fiber & Finishes, Precision Fabrics, Northern Composites, Tacky-Tape, PPG
	Woven carbon fiber reinforcement fabrics, fiberglass reinforcement fabrics, structural prepreg systems, HexForce structural textiles	HexForce, HexPly
	Woven fiberglass reinforcement fabrics, glass fiber rovings, structural composite reinforcements	Hybon
	MOLYKOTE® lubricants, pastes, greases, anti-friction coatings, anti-seize compounds.	MOLYKOTE®
	Rapid UV and visible light-curable materials, dispense equipment and UV/LED light-curing systems to dramatically improve manufacturing.	Dymax

Company	Product Lines	Brands
	Adhesives, Sealants, Structural adhesives	EpoxyLite, Conathane
	Potting & Encapsulants, Structural Adhesives, Sealants, Tapes, Structural Foams, Solvent & Water Based Adhesives, PFAS free Polysulfides	Cyberbond, Royal, SilaPrene, Vibra-TITE, Epocure, Foster, Hibond, Hardman
	Conductive Adhesives, Potting & Encapsulants, Structural Adhesives, TIMs	CoolTherm, ParkerLord
	Adhesives, Barrier Coatings, Coring Materials, Fillers, Potting & Encapsulants, Putties, Tooling Resins, Threadlockers	Insulcast, Plexus, Epocast, Permatex, Spraycore, TechSpray, Insulcure, Devcon
	Epoxy and Polyurethane Casting Resin, FR Resins and Polyesters, Core Fillers, Tooling Boards, Advanced Composite Resin Systems	Axson, SikaFast, SikaFlex, Sika Activ, Sikasil
	Epoxy Molding Compounds, Mold Release Sprays, Cleaning and conditioning materials,	LINQSOL, LINQALLOY, CHEMLING
	Immersion Cleaners, Spray-in-Air Cleaners, Ultrasonic & Vapor Degreasing Equipment	Axarel, Bioact, Lenium, Cleansafe, Rustsafe, B&B, Hydrex
	Phase Change Materials, Thermal Gap pads, Thermal Putty pads, Gap fillers, Thermal insulation pads	PTM, TGP, TIP
	2K Packaging, Cartridges Systems, Dispensing Robots, Fluid Dispensers, Nozzles, Syringe Barrels, Tips, Valves	Techcon, Metcal
	Lubricants, Surface Treatments, Coatings, Lubricants, Dispensing Equipment,	Zipchem
	Instant Adhesives, Structural Adhesives, Thread lockers, Sealants	Permabond

Trusted Global Aviation MRO Partner

Since 1990, **Aerospheres - a Krayden Company** has supported the commercial airline industry with the materials needed to keep aircrafts flying. Over 14,000 materials are **maintained in stock** at a state-of-the-art facility in London, supporting routine maintenance and AOG requirements for more than 2,000 customers worldwide.

AOG SUPPORT

24/7, 365-day AOG support for time-critical orders

99% of AOG orders are ready within 2 hours of placement

e-COMMERCE

24/7 aviation eCommerce with live inventory and rapid shipping

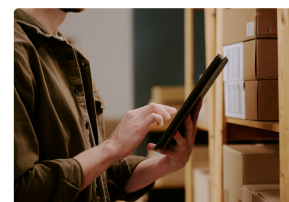

AOG ordering available online from the UK facility, with US expansion planned

MATERIAL MANAGEMENT

Stock availability for routine replenishment, scheduled maintenance, and AOG

Optimized inventory for high stock turns, long shelf life, and reliable supply

CONSIGNMENT

On-site consignment to reduce overstocking and inventory risk

Monthly deliveries, pay-on-consumption terms, and measurable cost savings
